

## Welcome to Zanzibar Watersports

Zanzibar Watersports is a diving and fishing operator also offering snorkelling, dhow cruises, kayaking, windsurfing, waterskiing and other marine activities. The dive operation comprises of a PADI 5\* IDC centre at Ras Nungwi Beach Hotel and 5\* Gold Palm resorts at Paradise Beach Hotel and Kendwa Rocks . All of our centres offer the full range of PADI courses from Discover Scuba Diving, for people who have never dived before, up to Open Water Scuba Instructor for those who have decided to take the plunge and go professional. We were one of the first dive centres to be recognized by the diving safety organization, DAN Southern Africa, when they introduced the 'Diving Safety Partnership' scheme and we actively support the local re-compression chamber by helping to provide funds and staff. We are known throughout East Africa as a company that is professional, eco-friendly and dedicated to safety, and as a result have people traveling from all over the world to dive with our experienced multi-lingual instructors time and time again.

Explore our favourite dive sites on an Interactive Map.

The crystal clear tropical waters surrounding the island of Zanzibar are home to some of the world's most diverse sea life and colourful reefs. At Mnemba Atoll marine park turtles are a common site and are used to seeing divers. At least three pods of dolphins live in the area and are seen on almost all trips and the majestic whale sharks migrates past the island twice a year and are often seen from our diving and fishing boats. Around the same time of year whales can be seen and a pod of rare humpback dolphins have been sighted many times. These strange creatures number only twelve hundred in the world and we are lucky enough to have around forty in the area.
