

## Watersports

A large fleet of boats is available to allow flexibility in our operations. Five motorised dhows are used for diving, allowing you the time to relax, enjoy the coastline and wave to local fishermen as you cruise to your dive in comfort. If you are in a hurry then we have a fast speedboat which can get you to any of the sites within half an hour. For more sedate trips we also have two traditional sailing dhows which we use for sunset cruises. Watching the sunset over the Indian Ocean from an African sailing boat while sipping a glass of wine is an experience you'll never forget.

If you are not a diver then we can still ensure you have a fun day out on the open seas. Our dive centres are close to Mnemba Atoll marine reserve where excellent snorkelling sites can be found with reefs coming up to within a metre of the surface. Kayaking amongst all the local fishing boats before stopping for lunch at a restaurant on the beach is a great way to spend a day and for those adrenalin junkies windsurfing, waterskiing, wake-boarding and ringos are available.
